

# Atlas of Male Reproductive Pathology: Current Histopathology 10

The Atlas of Male Reproductive Pathology: Current Histopathology 10 is the most comprehensive and up-to-date reference on the histopathology of male reproductive disorders. This full-color atlas provides a detailed overview of the normal anatomy of the male reproductive system, as well as the pathological changes that can occur in these organs.

The atlas is divided into 10 chapters, each of which covers a different aspect of male reproductive pathology. The chapters are written by leading experts in the field, and they provide a comprehensive overview of the latest advances in diagnostic pathology in andrology.
